## WHAT IS THE GREEN LASER BY LOR?

The Green Laser by LOR is a non-invasive fat loss laser. It is the only low level laser in the world that has been given FDA market clearance for overall body circumference reduction in patients +30 BMI.

The laser works as a natural alternative for fat loss by using low level lasers to create a temporary pore in the fat cells, allowing the fatty liquids to seep out of the cell and be naturally flushed out through your lymphatic system.

Healthy adipose cells at 0 minutes

Fat droplets seeping across adipose cells at 5 minutes

Complete collapse of adipose cell during emulsification at 18 minutes
